Director
The National Environment Service

Date

Annex A

Guidelines for applying for a Permit

The application form is stated as a 'Controlled Substances Import Permit Application' to cover the application for the four (4) different Permits. The National Environment Services recognises that there may be further imports during the 12-month validity period of a Permit therefore contact the National Environment Service for the appropriate form.

1. **Hydrofluorocarbon (HFC)** importation is prohibited. Exemptions may be given upon the approval of an HFC Permit.
 2. **Methyl bromide** importation is prohibited. An exemption may be given up on the approval of a Quarantine and Pre-Shipment Permit. This permit is approved upon consultation with the Secretary of Agriculture; only for quarantine applications, meaning any treatments to prevent the introduction, establishment or spread of quarantine pests or to ensure their official control; and any treatments applied directly preceding and in relation to export, to meet the phytosanitary or sanitary requirements of the importing country, or the existing phytosanitary or sanitary requirements of the exporting country.
- Applications shall be accompanied by a fee of NZD\$200
 - A Permit may not be transferred
 - A report on substances imported and consumed of the previous year must be submitted with the application
 - Any permit shall be subject to conditions set by the Director of the National Environment Service
 - The Director has the power to revoke any permits if the permit holder has committed an offence against the Environment Act 2003, the Environment (Montreal Protocol) Regulations 2021; or provided any false or misleading information in relation to the application of the permit.
 - All imports made under any permit shall be subject to **section 90 of the Customs Revenue and Border Protection Act 2021**
